

WORTH MOBILITY AIDS – PRODUCT CATALOGUE

Workshop for the Rehabilitation and Training of the Handicapped (**WORTH**) was established more than fifty years ago by the Swedish Red Cross with the objective of rehabilitating leprosy cured persons generally ostracized by society, through industrial training and employment. WORTH Trust today, is a Fully Self-sustained Rehabilitation Organization. The production centres, which employ mostly Differently Abled persons, enable them to generate a surplus, with which the entire cost of its Technical Training Centre for the Differently Abled, School for Speech and Hearing Impaired children, Day Activity Centre for the Mentally Challenged, Early Intervention Centre for Speech & Hearing Children and outreach activities are met!

Over the last five decades, WORTH Trust grew into what it is today, excelling in supply of quality products for major industries and making affordable aids and appliances for the Differently Abled persons. WORTH Trust produces various mobility aids for persons with disabilities and also for aged persons, helping them to lead a normal and productive life.
